

Digital escape room organised by the Százhalombattai Arany János Általános Iskola és Gimnázium.

(Százhalombattai Arany János Primary and Grammar school in Hungary)

During the #erasmusdays 2019 our school is organising an online escape room about the Erasmus+ programme and our experiences in connection with it. We would like to invite you to take part!

You can register until 9th October. The game can be played on 10-12 October, 2019. Students can play individually or in small teams.

Teachers can register here:

<https://bit.ly/30K3UjK>

On 10th October by 8 a.m. we will send the link to all the registered teachers with some helping material but the link will also be available on our school's website at that time:

https://web.arany-szhabatta.sulinet.hu/?page_id=1359

Here are some pieces of information:

The Digital Escape Room is an online game, so students will need a computer or tablet with internet access per group. It is also possible to play with phones, but bigger screens are better.

The game is composed of 10+1 challenges, they are different kinds of quizzes and puzzles. They are hidden on the site mostly in the form of links, but also on the site itself. If they are solved correctly different codes can be obtained (numbers or letters), which need to be written in the form on the site. They can solve the questions in any order and they can check if the code is correct by entering it in the form, if the code is incorrect, the form indicates!

To get to the final challenge, they need to get all the codes right and the form will give the link!

Once students have managed to escape from the digital room and complete the final challenge, we will send their digital certificates of participation to the email address you register with.

Thank you for being part in this experience and good luck to everyone!
